MAMTA GANGWAR

Full-Stack Web Developer | MERN Stack & Spring Boot

Bareilly, India | +91 9997690754 | mamtagangwar0528@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech (Computer Science) graduate with hands-on full-stack development experience in the MERN stack and Spring Boot. Skilled in building responsive, scalable web applications and RESTful APIs, with proven ability to deliver end-to-end features in collaborative, fast-paced environments. Seeking to leverage strong problem-solving and software engineering fundamentals in a challenging developer role at a global technology organization.

TECHNICAL SKILLS

Languages: C, Java, JavaScript, Data Structures & Algorithms

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js, Spring Boot, RESTful APIs

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Excel, Google Sheets, Power BI, Vercel

PROFESSIONAL EXPERIENCE

Full-Stack Development Intern — Progress With AI *Jul 2025 – Aug 2025*

Pune, India | MERN Stack Web Development

- Developed an AI-powered finance platform using the MERN stack (MongoDB, Express.js, React, Node.js), designing a responsive UI and building RESTful APIs to support AI-driven financial insights.
- Integrated AI-driven features and managed end-to-end database operations, contributing as a full-stack developer across the application lifecycle.
- Gained practical experience in debugging, application development, and collaborative software delivery within an agile team environment.

PROJECTS

AI Finance Platform

React, Node.js, Express.js, MongoDB, AI/ML API Integration

- Built a full-stack platform delivering real-time analysis of financial markets, investment trends, and personal spending patterns using AI-driven insights.

Face Attendance Detection System

OpenCV, Dlib, Python, TensorFlow, CNN, React.js, Node.js, MongoDB, AWS

- Engineered an automated attendance system using facial recognition (CNN models) to eliminate manual tracking, incorporating JWT authentication and REST APIs.
- Deployed the application to the cloud (AWS/Vercel) for scalable, real-time access.

Passport Status Tracking System

React.js, Node.js, Express.js, MySQL, JWT Authentication

- Developed a digital platform enabling applicants to track passport application status in real time, with secure authentication and SMS/Email API integration for status alerts.

EDUCATION

B.Tech, Computer Science — SRMS College of Engineering, Technology & Research *May 2026*

CGPA: 7.4 / 10

Senior Secondary (XII) — Blooming Dales' Modern School *2021*

Secondary (X) — Blooming Dales' Modern School *2019*

CERTIFICATIONS

- Web Development using MERN Stack — Progress With AI (Sep 2025)
